

Time-Served Manual Machinists with Mechanical Fitting Experience

Job Summary

Growing demand for mechanical engineering services from clients has led to a requirement for five time-served Machine Shop Technicians with good experience of manual/conventional (non-CNC) Turning, Milling and Boring machines together with proven mechanical fitting skills. Additional experience of NC machining would be an advantage.

DUTIES WILL INCLUDE:

- Manufacture and repair of parts, using manual (non-CNC) lathes, milling & boring machines.
- Working overtime subject to workload and emergency service requirements.
- Provide cover when on call (one week in four/five).
- Mainly workshop based with occasional work on-site.
- Training in new techniques / skill sets as required.
- Structured development programme with incremental pay structure.

The company offer a competitive starting rate of between £14.00 and £17.00 per hour and an OTE of £30,000-£50,000 per annum depending on shift pattern. Higher rates based on experience and performance. Other benefits include company pension, death in service benefit and 4 weeks paid holiday (increasing to 5 weeks after 2 years) + bank holidays.

If you are a resourceful, time-served mechanical engineering machinist who thrives on a varied workload, are keen to develop your skills, and are fully trained and experienced on (non-CNC) Turning, Milling and/or Boring machines, please apply we'd like to hear from you.

Job Type / Category

This is a great opportunity to work in our long-established, multi-branch electro/mechanical engineering business offering a variety of machining work in our Liverpool workshop, overtime and occasional site work. You will also have opportunities to enhance your skill set with training in electro-mechanical services unique to this business.

Our company have a thriving mechanical engineering workshop in Liverpool, enabling us to provide a complete turnkey electro-mechanical service for our clients. Hours of work are 08.00 to 16.30 Mon - Fri, with overtime available, and 'on-call' one weekend in four/five during busy periods. Night Shift (16.30 to 01.00) working is also available, either permanent or rotating days and nights.
